

## Introduction

This index represents a continuation of the HCGS's earlier effort to document veterans buried in Hamilton County, Ohio. Here the search was for veterans of the:

- Indian Wars
- Spanish-American War and Philippine Insurrection
- Other recorded military service between 1865 and 1917

As before, the main focus of this project was to document the veterans who served our country and are buried in Hamilton County, create memorials for them on Find-A-Grave (findagrave.com) if they were not already created, and to then explore the various cemeteries within Hamilton County and photograph the grave stones of these soldiers if they still had a marker.

NOTE: This list of nearly 2,000 veterans covers a period of more than 50 years (1865-1917), with only two named conflicts during that time: the Spanish-American War (1898-99) and the Philippine Insurrection (1899-1902) in which most of these veterans served. However, many others served in the military before or after those wars. Therefore, for this list an effort was made to determine the years of service for each veteran – see the column marked “Service Dates.” In some cases the only information found was service in the Spanish-American War (“SA”) or Regular Service (“RS”).

Several sources were used to gather the information for this index. We began, as we did with the previous projects, by consulting the Grave Registration Cards and Cemetery Plat Maps created by the Works Progress Administration (WPA). [Please see the Introduction to the Civil War Index for a description of data included in these sources.]

In the index, if a “Y” is located in the column labelled “Photo on FG” then there is an existing photo of the gravestone that has been taken and uploaded to Find-A-Grave. Much of the same information that is located in the list has also been entered into Find-A-Grave. The link to the site is located below.

A list of the Hamilton County cemeteries found on the WPA maps and referenced as part of this project can be found on our webpage. In addition to listing the cemetery name back in the 1930s during the WPA project, the current name is listed, as well as the current street address.
